GODAN FOUNDATION

FOUNDATION PROFILE

BRIEF BACKGROUND INFORMATION

GODAN Foundation LBG began in 2002 as Ethiamu State Acting Group, a community-based organisation, and was formally registered in 2006 as Ethiamu Development Organisation, a Non-Governmental Organization. Over the years, the organisation has collaborated with institutions including the Ghana Education Service, Ghana AIDS Commission, Ministry of Health, corporate organisations and philanthropists to implement educational, health and community development projects.

Building on its experience in literacy development, the organisation piloted reading and spelling training in basic schools in Accra between 2011 and 2013 and later developed the Ghana Reading Icon initiative, which was tested with selected city-public primary schools in the Ga South Municipality in 2015. In 2016, GODAN Foundation developed a literacy curriculum, teacher training materials, educational content and supporting software, with six books approved by NaCCA in early 2020 and others including devices undergoing review.

Today, GODAN Foundation LBG's focuses on literacy, digital learning and career development, working to provide partner schools and communities with books, digital learning centres, tablets and other educational technologies that help young people acquire the knowledge and skills needed for future economic opportunities.

COMPOSITION

MISSION STATEMENT

To empower learners with reading skills, digital devices, transformation, and career skills essential for lifelong success and independence.

VISION

To raise a generation of confident learners, innovative thinkers, and digitally skilled individuals who contribute meaningfully to their communities.

FUNCTIONS

To empower and equip learners in and out of school with reading, digital literacy and career development skills through the Ghana Reading Icon, Read for Career and One-Child-One-Device projects.

The Foundation prepares learners for entrepreneurship and sustainable employment opportunities by age eighteen.

To achieve this, GODAN Foundation continues to carry out research, advocacy, training, technical support, resource mobilisation and volunteer engagement, while working with communities, schools, parents, traditional authorities, organisations and development partners at national, regional and local levels.
